IISRP PUBLISHES WORLDWIDE RUBBER STATISTICS 2014 EDITION

HOUSTON, TEXAS, 6 Nov 2014—The International Institute of Synthetic Rubber Producers (IISRP) has published the 2014 edition of *Worldwide Rubber Statistics*, the world's leading source for authoritative data about synthetic rubber, and is making copies available to interested parties.

This edition of the book, which has been published annually for more than 30 years, has revisions to other elastomer type capacities as the synthetic rubber market continues to be dynamic. Additionally, IISRP – China has played a key part in this publication to enhance the intelligence on the Chinese market.

The 86 page, 8 1/2" x 11" book provides a comprehensive analysis of capacity by elastomer type, by geographical distribution, and by corporate ownership. It also features a graphics section that emphasizes statistics in easy-to-read format and a section on capacities of synthetic rubber production facilities throughout the world, including a section on planned and announced expansions of synthetic rubber plants.

The book is available for order on the IISRP website at www.iisrp.com/publications

The IISRP is an international not-for-profit trade association with over 50 corporate members, domiciled in 23 countries, who produce 80 percent of the world's supply of synthetic rubber. Incorporated in 1960 and headquartered in Houston, Texas, the Institute supports section offices in Milan, Tokyo and Beijing.
