## IISRP ANNOUNCES WEBINAR

**HOUSTON, Texas USA- 31 March 2017-** The IISRP has announced a “*Recent Developments and Applications in Elastomers and Synthetic Rubber*” webinar.

The 1 hour webinar will be presented by Dr. Walter Ramirez, Chief Innovation Officer and Founder of Innventik S.L., a Technology-Market Innovation firm based in Europe that assists customers worldwide to accelerate commercialization & innovation.

The webinar will address:

- Relevant technology activity, major drivers and trends
- Sustainability: Renewable monomers and biobased solutions
- Elastomer nanocomposites: Graphene, Nanotubes, Nanodiamonds
- Innovative applications and novel elastomers update

The webinar will take place on 10 May 2017, 0900am CDT (USA). Registration can be made for this event by going to [www.iisrp.com](http://www.iisrp.com) and clicking on Webinar tab.

“This is a continuation of our webinar program and what we hope will be an informative and rewarding experience for synthetic rubber industry professionals” said Roxanna Petrovic, IISRP General Director of Programs.

The IISRP is an international not-for-profit trade association with more than 50 corporate members domiciled in 20 countries who produce 80 percent of the world's supply of synthetic rubber. Incorporated in 1960 and headquartered in Houston, Texas, the Institute supports section offices in Milan, Tokyo and Beijing.
